

Plateau Rothroute SC04

Schinnen

Walking route

→ **12.2 km**

Start- and endpoint

Limpensweg 22, 6439 BE
Doenrade

Level of difficulty

Gemiddeld

The Plateau Rothroute is hidden away from the famous hill country, the action in Parkstad and the activity on the banks of the Meuse. In this relatively unknown and therefore quiet part of South Limburg you will find untouched nature, panoramic views and cultural memories that are still reminiscent of the mysterious time of the Bokkenrijders. You start at the radiant white castle of Doenrade, where you can park the car and drink a cup of coffee in the special atmosphere of this castle. You will discover the hidden beauty of this walking route by following the wooden posts with a painted red head or red band, or by using the downloadable separate PDF.
